One of the school's Imagined Committee was taken to One at first sight with the girl, Kiko-chan, but what happens when Kiko-chan unexpectedly approaches as a challenge and finds One's true feelings? Opposite of One is the innocent adolescent love story with an off-the-wall supporting cast of friends. ♡ Also includes the short story, "Hana School Students (Tab)," about a group of boys who also don't quite make it love things, plus a bonus story. ♡

Sanjay Lakshana, former Vice-Chancellor of
Rishi Valley School, says there are so many fine musical
instruments in this world.

He says, "I have seen a lot of people who are
not interested in music, but I have seen a lot of
people who are interested in music. I have seen
a lot of people who are interested in music, but
I have seen a lot of people who are not interested
in music. I have seen a lot of people who are
interested in music, but I have seen a lot of
people who are not interested in music. I have
seen a lot of people who are interested in music,
but I have seen a lot of people who are not
interested in music. I have seen a lot of people
who are interested in music, but I have seen a
lot of people who are not interested in music."

He says, "I have seen a lot of people who are
not interested in music, but I have seen a lot of
people who are interested in music. I have seen
a lot of people who are interested in music, but
I have seen a lot of people who are not interested
in music. I have seen a lot of people who are
interested in music, but I have seen a lot of
people who are not interested in music. I have
seen a lot of people who are interested in music,
but I have seen a lot of people who are not
interested in music. I have seen a lot of people
who are interested in music, but I have seen a
lot of people who are not interested in music."
